1. New Modules & Integrations

S.No	Module / Integrations	Description
1.	Faecal Sludge Management (FSM)	The FSM module is designed to improve citizen services, ensure the waste is disposed of at the locations designated by the state and assist the ULB in managing the desludging operations.
2.	DigiLocker Integration	UPYOG Platform integration with DigiLocker for PT Receipts. This will enable a Digital Locker user to search latest PT receipt from issuer (UPYOG) repository and fetch (pull) it into Digital Locker.
3	Citizen Engagement - Survey Service	To enable engagement between government and citizens. Any designated government employee can share any documents, make alerts about any events or broadcast messages to all the citizens. This module helps the government to conduct citizen surveys and polls.
4	Dx-Services	The Dx-service is designed to integrate Digi locker with the UPYOG PT module.
